This letter refers to docket # 04-7984.

I am a paruretic and have been since grade school, I am now 80 years old. I have lived with this albatross all these years, through thousands of situations, and have had many hard days of urine retention. ,

During WWII I fought this sort of problem while in the Army. It has not been an easy life and it is truly a debilitating condition with which to be afflicted. I

Urine samples on demand, while in the service, or in public life, have always been a difficult situation. Thousands of persons are afflicted, many without even knowing a name for it (paruresis).

It is barbaric to continue this sort of demand on persons who cannot contribute. Please write your new regulations with this in mind and resort to some sort of other tests.
